

Life Science Research in India

Saturday 4 September 2010

EMBO Global Exchange &
The Wellcome Trust/DBT India Alliance meeting

Programme

- | | |
|---------------|---|
| 10:00 – 10:10 | Welcome address given by Maria Leptin , EMBO Director and K. VijayRaghavan , India Alliance and Director, NCBS |
| 10:10 – 11:00 | Keynote lecture: Venki Ramakrishnan What we have learned from structures of the ribosome |
| 11:00 – 11:30 | K. VijayRaghavan The development of movement |
| 11:30 – 12:00 | Partha Majumder Genetic determinants of immune-response to a polysaccharide vaccine for typhoid |
| 12:00 – 12:15 | Introduction to The Wellcome Trust/DBT India Alliance & EMBO Global Exchange given by Anuradha Lohia and Gerlind Wallon |
| 12:15 – 13:00 | Panel discussion on research opportunities in India |
| 13:00 – 14:30 | Lunch and Poster session |
| 14:30 – 14:45 | Rashna Bhandari Inositol pyrophosphates regulate cell physiology via protein pyrophosphorylation |
| 14:45 – 15:15 | Sandhya Visweswariah The enigmatic metallophosphoesterases: from form to function |
| 15:15 – 15:45 | Azim Surani Germ cells: the route to totipotency |
| 15:45 – 16:15 | Coffee Break |
| 16:15 – 16:45 | Vivek Malhotra Mechanism of protein sorting during conventional & unconventional protein secretion |
| 16:45 – 17:15 | Ashok Venkitaraman Dissecting the molecular anatomy of chromosomal instability syndromes |
| 17:15 – 17:45 | Satyajit Rath Caspase-independent death pathways in the T lymphocyte lineage |
